By no later than January 1, 2010, each state must have completed implementation of all requirements of participation and provide, or cause to be provided by an agent or third party, to the designated operator and in an electronic format acceptable to the operator, at a frequency of once every 24 hours, titling information for all automobiles maintained by the state. The titling information provided to NMVTIS must include the following:

(c) By no later than January 1, 2010, each state shall establish a practice of performing a title verification check through NMVTIS before issuing a certificate of title to an individual or entity claiming to have purchased an automobile from an individual or entity in another state or in cases of title transfers. The check will consist of—

(1) Communicating to the operator the VIN of the automobile for which the certificate of title is sought;

(2) Giving the operator an opportunity to communicate to the participating state the results of a search of the information and using the results to determine the validity and status of a document purporting to be a certification of title, to determine whether the automobile has been a junk or salvage vehicle or has been reported as such, to compare and verify the odometer information presented with that reported in the system, and to determine the validity of other information presented (*e.g.*, lien-holder status, etc.).

(d) By January 1, 2010, those states not currently paying user fees will be responsible for paying user fees as established by the operator to support NMVTIS.
